- The majority of the country is mountainous.

- Los **hondureños** are known for being *friendly*.
- *San Pedro Sula* used to be an agricultural center but today is industrial.

- ▶ The capital of Nicaragua is Managua. In *nahuátl* it means “where there is an extension of water”
 - ▶ It is a land of lakes. The largest lake, LAKE MANAGUA is very interesting. The lake has many saltwater species, such as sharks and swordfishes. This is because a long time ago this lake had access to the sea. The lake today is landlocked .
