Las Estaciones

- The majority of the seasons in South America are REVERSED than what we have here. Ex: When we are in Summer, they are in Winter.
- Because of the seasons, children go to school in a different period of time. Schools usually start at the end of February or beginning of March and end in the middle of December.
- Christmas happens to be in the beginning of the Summer, so we have a VERY HOT SEASON!!

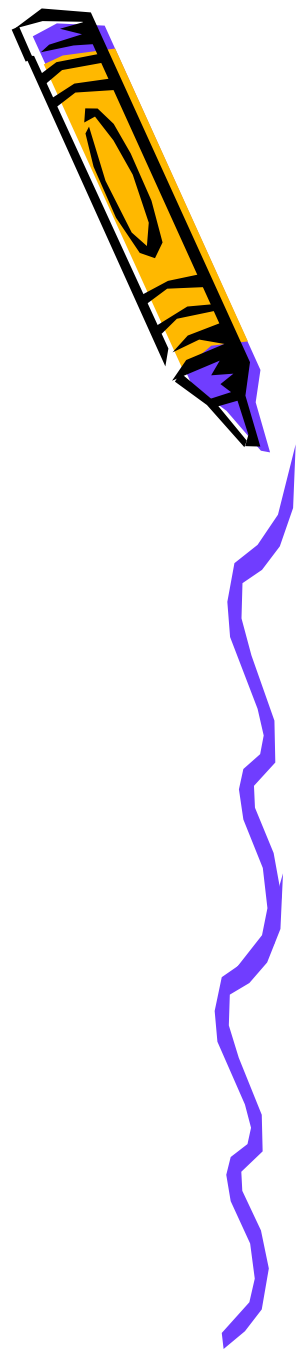

- Because Latin America is big, our seasons are very different everywhere! In the tropic, Spring time is like here in GA: very humid and rainy, but in places such as Chile, the Spring time is warm and dry, with a very dry Summer.
